

PRESS RELEASE

FOR IMMEDIATE RELEASE:

ProjectReady Central Software Launch Cloud Software Delivers Centralized Management & Control of Projects & Content with SharePoint

NEW YORK, NY – July 31st, 2017 - [ProjectReady™](#), a leading project management and document control solution announced the release of **ProjectReady Central**.

ProjectReady Central allows you to easily manage projects, collaborate and control the distribution and approval of documents. The product uniquely addresses digital disruption & the ever-expanding number of cloud services by unifying siloed project data into a single, consistent, modern user experience – ending content chaos.

Industries that find great value from the solution include the AEC (Architecture, Engineering, Construction), Professional Services & Legal Firms and Departments. The value of the software truly extends to any project-driven organization that needs to simplify the way they manage projects, tasks, resources and control the management, distribution and approval of their content.

ProjectReady Central works with **SharePoint** and the **Microsoft Cloud**, leveraging the affordable storage & content management capabilities while delivering a rich immersive business solution all driven by the business user.

ProjectReady Central Features include:

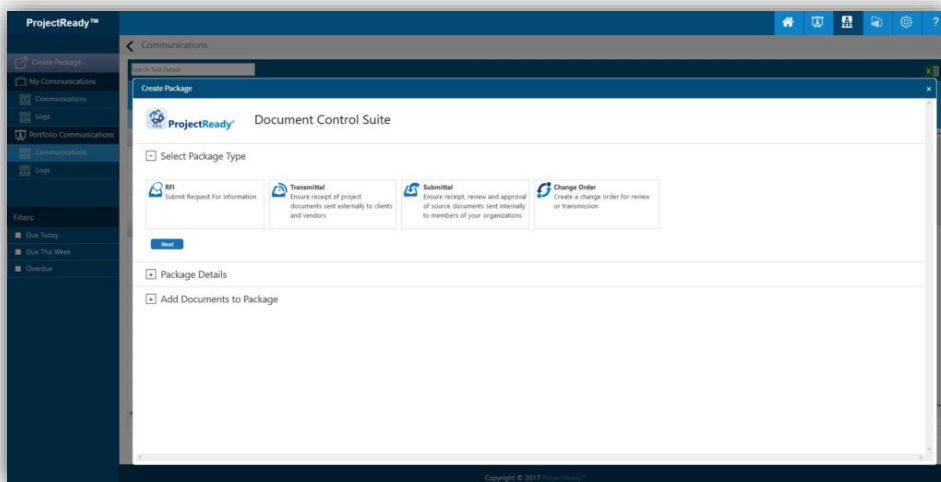

- State-of-the-Art, Modern, User Experience and Interface
- [Process Driven Control of Projects & Content](#)
- All Your Project, All Your Content, All in One Place
- [Enterprise Project & Program Management](#)
 - Be it one or a thousand projects, from a single location you can manage, edit and create **ALL your projects, tasks, approvals, documents & resources**
 - Easily set site security and permissions for all your projects from one place driving secure internal & external collaboration
 - Governed and secure creation of collaborative projects sites by business users
 - Best practices information architecture built to scale automatically
 - Bring together information from **Project Accounting & Line of Business systems** to one central interface for easy management
 - Rich & comprehensive reporting across all projects, tasks & resources
